Re: BSU snack bar

Could you please come and talk to me about the BSU snack bar? - I have heard rumours that one is being thought of, but before anything like that can happen there has to be considerable consultation and consideration of whether there would be a conflict with existing facilities (Crest Room, Gamut Room, Band Room); whether there are adequate provisions for refrigeration and other health concerns; financial arrangements, etc.

We should probably have a meeting with all the carbon copy receipients listed above and then figure out where to go from there. Both the Gamut Room and Band Room had to make proposals to the Community Council to receive final approval; so, I assume that the same would apply.
